

INTEGRATED ELECTRONICS

YOUR INTERCONNECT SOLUTION PARTNER

We are serving Electronics, Electrical and thermal interface materials to OEM's ODM's and EMS partners since 1984. We are authorized distributors / channel partners for our Global suppliers rendering complete techno-commercial support from print to product life cycle.

High Speed - Board to Board, High Density Array up to 500 single-ended IOs or 125 differential pairs with max. grounding & routing flexibility, Wire to board, Cable to Board, PCI Express®, RF(Ganged, U.FL, MMCX), Optical QSFP+, IC packaging with SI enabled for 28 & 58 Gbps Systems, Ultra micro. 0.80 or 1.00mm pitch grid 1mm body height 28+ Gbps performance up to 400 pins, Hermaphroditic connectors with 0.5, 0.635 or 0.80mm pitch & low profile 0.40mm. Orientation options like parallel, perpendicular and coplanar mating. RiseUp®- 19mm, 25mm or 30mm with board locking feature. Edge card, ExaMAX® Back plane offering lowest mating force of 0.36N, Flexible Stacking, Power & Signal, Panel IO's, custom solutions and Tools.

Rail-Mounted Terminal Block Systems -Through / Multilevel / Ground / High Current / Fuse / Disconnect /Diode / X-COM® / Miniatures / Sensor & Actuators. Device Terminal and Installation connectors- Chassis Mount Terminal Strip, Lighting Connectors, PUSH WIRE® for Junction Boxes & Transformers. Pluggable-picoMAX®. PCB Terminal Blocks- Modular & SMD. WINSTA®-Pluggable. Distribution Boxes & Cable Assemblies. Automation Technology-e!COCKPIT, Feildbus Couplers, Prog... Feildbus controllers, Digital I/O Modules, Switches, Shield Connections System. Power Supplies- SMPS, ECBs, UPS, Buffer & Redundancy Modules. Interface Electronics - Signal Conditioners & Isolation Amplifiers, Relay & Optocoupler Modules, Function Modules. Converters, Current & Energy Measurement. Marking & Accessories for Automation and mounting with Operating Tools.

Push pull Connectors (IP65/ IP67), M8, M12, M23, 7/8" HARAX® Circular Connectors, RJ45, Subminiature D Connectors, SEK Insulation Displacement, Interface har-link® for high data rate with shielding, DIN 41 612 IEC 60 603-2 ,IP20-67, Mini Coax, har-bus® 64 for VME 64x, HM Connectors, CompactPCI, ATCA next Gen Back plane, Micro Edge card, T1- Industrial SPE IEEE 802.3bp 1000, har-flex® 6 to 100 poles 1.6mm thick with data rate up to 14 Gbps & har-flexicon® miniature SMD PCB terminals with 1.27mm, 2.54mm, 3.50/3.81mm and 5.00/5.08mm pitches. MICA®, UHF RFID, Robust Ethernet Switches for harsh environment from Device Connectivity.

Screw terminal blocks from NV enterprise offers wide range of solutions for wire to board with one piece (SMT & TH) and two piece combicon solutions with standard pitches. Ready Inventory for commodity solutions like: Resistor Network, DIP Switches, Registered Jacks, IC sockets, BergStick, Jumper, Flow solder, D-sub's, Relimate, CPU, Box Headers, FRC connector, cables like solution along with their terminals / crimp contacts, tooling options and mechanical accessories. Thermal interface material like Sil pads, Gap pads and many more.

IE enjoys an excellent proven customer relationship with private and public-sector industries viz.: Telecom, Automation, Instrumentation, Medical Electronics, Automotive, Lighting, Aerospace, Railway, IOT, Renewable, Aerospace, Power Electronics, Optical, IC packaging and Defense Sectors with determination to serve the best.

For High-End products in connectors our team extends support to provide the most reliable products and assist them with most efficient product range available globally. Constant Techno Commercial support from highly trained Field Application Engineers with back end support team Integrated Electronics adds worth to our services and integrity to our organisation.

To extend additional support to our esteem clients we also offer solutions as Independent Distributor for renowned brands like Henkel Bergquist, Kerafol, Saint Gobain, S H E E N, K B , Y I P , L I S A T, Graftech, FCI OEN AMPHENOL, NICOMATIC, PHOENIX CONTACT, 3M, FISCHER, LEMO, CPI with wide range of interconnect solutions.
